OUR WORKS INCLUDES

- HEAVY STEEL FABRICATION & ERECTION WORK
- PRE ENGINEERED BUILDING
- FOOT OVER BRIDGES
- GLASS GLAZING STRUCTURE.
- TENSILE FABRIC STRUCTURES.
- POLYCARBONATE ROOFING STRUCTURE.
- PPGL/PPGI ROOFING STRUCTURES.
- PUFF PANEL STRUCTURES.
- DHOLPUR CLADDING FACADE.
- ALUMINIUM COMPOSITE PANEL CLADDING.
- FIRE FIGHTING LINE

Aginyx Infratech Solutions Pvt. Ltd. is a fully engineering-based company. The core business of the company is providing turnkey solutions for various projects.

It involves giving engineering and technology solutions to our client, by using the most advanced technical ideas and modern software to serve the purpose. Value engineering is the base on which the company works. It always tries to give its client or architect optimum solutions in the field of civil and mechanical Engineering. The company has in-house Mechanical and Civil Engineers, Designers and Draftsmen.

Company has in-house Procurement team to provide quality products to client. Our responsibilities include transferring test certificate, guaranty or warranty of machines/structure to the client

Our efficient project engineers complete the job to the full satisfaction of the engineer in charge. minor details are taken care of while fabrication, erection, testing and commissioning of machinery and structures. Proper testing is carried out in the material/structure to confirm proper welding, fixing of parts in adequate levels.

Our fabrication unit is fully equipped with Engineers, foremen, laborers, welders and fitter. The company has in-house all equipment, tools and tackles needed for fabrication commissioning of jobs.

Since our inception, we believe in building long term relationship with our client by providing total solutions with problem solving approach.

It is pleasure for us to introduce ourselves to such a reputed firm with the hope to serve you better over the years.

ADDING US A TEAM MEMBER YOU GET

- ◆ INHOUSE DESIGN AND DETAILING SERVICES
- ◆ DEDICATED PROJECT ENGINEER FOR SITE EXECUTION.
- ◆ VALUE ADDED ENGINEERING FOR JOB EXECUTION.
- ◆ PROJECT SCHEDULE OF JOB
- ◆ LATEST TOOLS AND EQUIPMENT
- ◆ ADVANCED TECHNIQUES FOR OPERATIONS

Why Us?

The remarkable success that our organization has achieved in this competitive market is owing to our professionalism, quality centric approach and transparent deals. We have made a mark in the respective industry by offering our clients optimum quality products and services that meet the specific demands of customers.

Some of the other highlighting attributes that are responsible for our growth

are:

- Installation training
- Operational training
- Customized solutions
- Ethical business practices
- Easy payment option
- Sophisticated infrastructure

INFRASTRUCTURE & MANPOWER

Well-organized and highly advance infrastructure plays a significant role in the growth of every industry. Our company has sophisticated infrastructure that help us to produce qualitative products and services. Aginix Infratech Solutions is well equipped with modern machine, latest technology and highly experienced engineers who help us to produce quality products at customized rates.

OUR TEAM

Professionals of our team have complete knowledge of their respective domain and are well aware of their responsibilities and efficient in offering solutions with perfection.

Nature of Business	General Contractor, Turnkey Projects, Manufacturing, Trading and Service Provider
Year of Establishment	2014
Legal Status	Private Limited Company
Company Pan No.	AAMCA4702G
Company GST No.	09AAMCA4702G1ZR
Employee Strength	10
Annual Turnover	1, 50,00,000/- Approx

MACHINERY

Machines installed at our units are efficiently managed by our professionals to ensure consistency in the production. Our product range is thoroughly examined by our experienced quality analysts on various parameters to offer flawless and high quality products our clients. Product range offered by us is widely appreciated for its sturdy construction, easy maintenance, designs and durability.

Our organization is registered with head office at Greater Noida, Uttar Pradesh, with branch offices at Jaipur, Rajasthan.
